

10G Active Optical Module with Warranty

AI Overview

10G SFP+ optical modules are available with lifetime or limited warranties, suitable for enterprise and data center networks.

Options and Features

- Solid Optics 10G SFP+ Modules** Solid Optics offers a wide range of 10G SFP+ transceivers, including copper RJ45, multimode, single-mode, bidirectional, and CWDM/DWDM modules with reach up to 80 km. All modules come with a lifetime warranty, ensuring replacement if the module fails under normal operating conditions (no time limits or hidden conditions).
- FS 10GbE SFP+ Modules** FS provides 10G SFP+ modules for data centers, enterprise wiring closets, and ISP applications. They offer 30-day free returns and are stocked in multiple warehouses for fast shipping. While FS emphasizes reliability, warranty details vary by product, so checking individual module listings is recommended.
- Cisco SFP-10G-LR (WhaleComm)** The Cisco SFP-10G-LR is a long-reach single-mode module operating at 1310nm, supporting distances up to 10 km. WhaleComm offers these modules refurbished with a lifetime warranty, fully tested to meet Cisco specifications. This option is ideal for enterprise data centers or campus networks requiring high reliability.
- Huawei 10GE Optical Modules** Genuine Huawei 10GE modules are available with fast worldwide shipping. Warranty coverage depends on the seller, but purchasing from authorized distributors ensures genuine modules with manufacturer-backed support.

Considerations

Module Type: Choose between single-mode (long distance) or multimode (shorter distance) depending on your network requirements.

Compatibility: Ensure the module is compatible with your switch or router (Cisco, Huawei, or other brands).

Warranty: Lifetime warranties provide the most security, while some vendors offer limited warranties or return policies.

Reach Distance: Modules vary from short-range (up to 30m for 10GBASE-T) to long-range (up to 80 km for DWDM/CWDM modules).

Recommendation For maximum reliability and warranty coverage, consider modules from Solid Optics or WhaleCo...
