

32-core outdoor optical cable distribution box model

Overview

FDB-32D Series 32 ports Splitter Distribution Box with cassette-style splitters, suitable for outdoor, can be used for local cable or drop cable end and sub-distribution; also it can be used for protective connection of cable and layout pigtails, and fiber optic terminations of. FDB-32D Series 32 ports Splitter Distribution Box with cassette-style splitters, suitable for outdoor, can be used for local cable or drop cable end and sub-distribution; also it can be used for protective connection of cable and layout pigtails, and fiber optic terminations of. Spring Optical Communication is one of the largest and best 16/24/32/48 core outdoor fiber distribution box manufacturers and suppliers with rich experience. Welcome to buy our high quality products or wholesale our customized 16/24/32/48 core outdoor fiber distribution box in stock with our. The equipment is used as a termination point for the feeder cable to connect with the drop cable in the FTTx communication network system. The fiber splicing, splitting, and distribution can be done in this box, and meanwhile it provides solid protection and management for the FTTx network. FDB-32 Series 32 ports Fiber Distribution Box, also called Splitter Distribution Box or Fiber Terminal Box, can be used in FTTH projects and is suitable for corridor, basement, room, and building's outer walls application. With the function of the mechanical splice, fusion splice, light splitting. Fiber Optic Distribution Box is used for outdoor, corridor or indoor connection trunk optical cable and cable distribution interface equipment. It is a perfect cost-effective solution-provider in the FTTx networks. | Water-proof design for outdoor.
