

Aof500 Optical Power Meter

Overview

AOF500 PON power meter is designed for PON network testing. It can test and display 1310nm, 1490nm, 1550nm wavelengths in one time, and can detect 1310nm burst signal. For PON network testing Support online measurement Pass through measurement Fast assessment by PASS/FAIL. WARNING WARNING You are cautioned that changes or modifications not expressly approved in this document could void your authority to operate this equipment. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. 220801] Title Author Created Date Manuals and User Guides for TriBrer AOF500. We have 1 TriBrer AOF500 manual available for free PDF download: User Manual Tribrer AOF500 Pdf User Manuals. Our warranty is above industry standards, up to 14 months.
