

Canada After-Sales Service for Large Core Fiber Optic OS2

AI Overview

Several Canadian suppliers offer OS2 fiber optic cables with comprehensive after-sales support, including technical assistance, custom configurations, and nationwide delivery. Key Suppliers and Services

Cablify supplies OS2 singlemode fiber optic cables with a 9/125 μm core, designed for long-distance transmission such as campus backbones and inter-building links. They provide custom lengths, connector types (LC, SC, FC, ST), and jacket options, with same-week dispatch for standard configurations. After-sales support includes technical guidance for installation, compatibility with 10G SFP+ transceivers, and free delivery on orders over CAD 100. They ship across major Canadian cities including Toronto, Vancouver, Calgary, Edmonton, Montreal, and Ottawa . Pearlyond Technologies Canada specializes in fiber optic patch cords, pre-terminated assemblies, and test equipment. Their after-sales service emphasizes quality assurance and traceability, with all products 100% visually and optically tested under ISO9001:2000 standards. They provide technical support for installation, testing, and troubleshooting, and can supply custom-made OS2 cables to meet specific project requirements. Their products comply with Telcordia-326-CORE, ANSI/TIA/EIA, ISO/IEC 11801, and IEEE standards . Mouser Canada and Optic.ca offer OS2 fiber optic cables with datasheets, inventory, and technical specifications. While primarily focused on sales, they provide product documentation and support for selection, which can assist in planning and deployment of large-scale fiber networks . Infralink Networks manufactures custom fiber assemblies and distributes Datacom accessories. They provide after-sales support for custom orders and ongoing projects, including guidance on large contracts and technical specifications. However, they sell primarily to distributors a...
