

Certified Network Security Device 200G

AI Overview

The FortiGate 200G series is a certified, AI-powered next-generation firewall delivering high-performance threat protection and secure networking at 200G throughput. FortiGate 200G Overview The FortiGate 200G series is a next-generation firewall (NGFW) designed for high-performance network security. It combines AI-powered security and machine learning to detect and mitigate threats in real time, providing deep visibility into applications, users, and devices before they become risks. The device supports universal zero-trust network access (ZTNA), ensuring that only validated users can access applications, reducing lateral threats.

Key Features

- High-Performance Security:** Powered by Fortinet ASIC technology and the NP7Lite (SP5) processor, the 200G series accelerates network and content processing for fast application identification and SSL inspection without impacting performance.
- Integrated Security Fabric:** Extends AI/ML security capabilities across endpoints, cloud, and hybrid IT environments, enabling automated threat detection and response.
- Advanced Edge Protection:** Includes web, content, and device security, along with network segmentation and secure SD-WAN to reduce complexity and risk.
- Redundancy and Reliability:** Dual built-in non-hot swappable power supplies ensure continuous operation in mission-critical networks.
- Deployment Flexibility:** Can be deployed as a physical or virtual device, container, or cloud service, allowing consistent security across all network edges.
- Support and Services:** FortiGuard bundles provide unified threat protection, while FortiCare Premium and Elite services offer rapid support and RMA options.

Industrial 200G Switch Option

For industrial environments, the D-Link DIS-200G Series offers a certified 200G-class switch with IP30-rated metal casing, high electromagnetic compatibility, dual power inputs for redundancy, and features like ERPS quick failover, Auto-Surveillance VLAN, and loopback detection. This makes it suitable for harsh environments and mission-critical...
