

Contact information for relay protection transformers

AI Overview

You can contact leading transformer protection relay providers such as ABB, SEL, EMR Global, and Automation 2000 for product inquiries, support, and purchase information. Key Suppliers and Contact Options

1. ABB – Transformer Protection Relays ABB offers protection, control, measurement, and supervision relays for power transformers, including two-winding and generator-transformer blocks. For support or purchase inquiries, you can reach ABB through their official website contact page: ABB Medium Voltage Protection Relays where you can submit requests for technical support or sales information .
2. Schweitzer Engineering Laboratories (SEL) SEL provides the SEL-787 series for two-, three-, and four-winding transformer protection with advanced monitoring and communication options. Contact SEL directly for product details, technical support, or purchasing via their website: SEL-787 Transformer Protection Relay which includes options for email or phone inquiries .
3. EMR Global EMR Global designs advanced protection systems for industrial transformers, including differential, overcurrent, Buchholz, thermal, and REF relays. For installation, maintenance, or relay upgrades, contact EMR through their website: EMR Transformer Protection Relay to submit inquiries or request support .
4. Automation 2000 Automation 2000 manufactures the DGPT2® protection relay for electrical transformers, certified to ISO 9001 and multiple international standards. Contact Automation 2000 for product specifications, sales, or technical support via their website: Automation 2000 Protection Relays .

Tips for Contacting Suppliers Provide transformer specifications (voltage, winding type, capacity) to get accurate relay recommendations. Ask about certifications (IEC, UL, ATEX) if your installation requires compliance with safety standards. Request technical datasheets...

Transformer Protection Relay: 5-Step Beginner Guide to

Learn how a transformer protection relay works in simple terms. Understand faults, relay types, and why modern relay protection is essential for

SEL-787 Transformer Protection Relay | Schweitzer Engineering

Protect grounded-wye transformers with sensitive REF elements. Provide volts/hertz protection with frequency tracking from 20 to 70 Hz for generator step-up and other variable frequency applications.

Circuit Protection, Fuses, Power Control & Sensing

Littelfuse is a global manufacturer of leading technologies in circuit protection, power control & sensing. Our products are found in automotive & commercial vehicles,

SEG Electronics

Protect what you value. SEG Electronics manufactures protection relays for transformers, generators, motors, and renewable energy applications since 1969.

Power System Protective Relays: Principles & Practices

Abstract: Protective relays and devices have been developed over 100 years ago to provide "last line" of defense for the electrical systems. They are intended to quickly identify a fault and isolate it so the
