

Custom Price of Display Cabinets in Indian Data Centers

AI Overview

The cost of custom display or server cabinets in Indian data centers varies widely, typically ranging from ₹25,000 to ₹1,50,000 or more per unit depending on size, material, and customization requirements.

Factors Affecting Custom Cabinet Pricing

Material and Build Quality: Cabinets can be made from steel, aluminum, or wood composites. High-quality steel enclosures with reinforced frames and anti-corrosion coatings are more expensive than basic metal or wooden cabinets.

Size and Rack Units: Standard 19-inch racks are common, but taller or deeper cabinets for high-density servers or networking equipment increase costs.

Customization Features: Custom airflow management, cable routing, lockable doors, LED lighting, and adjustable shelves add to the price.

Security and Access Control: Cabinets with intelligent access controllers, biometric locks, or enhanced physical security are priced higher.

Manufacturer and Brand: Established Indian manufacturers like Bartakke and NetRack provide ISO-standard, durable, and scalable solutions, which may cost more than smaller suppliers but offer better long-term reliability.

Volume and Bulk Orders: Ordering multiple cabinets can reduce per-unit cost due to economies of scale, while single custom units are priced higher.

Typical Price Ranges

Basic Enclosed Cabinets: ₹25,000 – ₹50,000 per unit for standard steel racks with minimal customization.

Mid-Range Custom Cabinets: ₹50,000 – ₹1,00,000 per unit with enhanced airflow, cable management, and lockable doors.

High-End or Fully Customized Cabinets: ₹1,00,000 – ₹1,50,000+ per unit for intelligent racks with advanced security, LED lighting, and tailored dimensions.

How to Get Accurate Pricing

Contact manufacturers directly via IndiaMART, ExportersIndia, or company websites like Bartakke and NetRack. Provide detailed specifications: number of rack...
