

Dominic Cable Tray Specifications

AI Overview

Dominic cable trays are designed to meet industrial and commercial electrical installation standards, offering durable, compliant solutions for cable management.

Overview Dominic cable trays are typically available in mesh, ladder, and solid-bottom designs, providing flexibility for different installation needs. They are engineered to support electrical cables safely while allowing ventilation, easy access, and future modifications. These trays are commonly made from galvanized steel, stainless steel, or aluminum, ensuring corrosion resistance and long-term durability in various environments.

Key Specifications

- Material Options:** Galvanized steel, stainless steel, aluminum
- Tray Types:** Mesh tray (ventilated), ladder tray, solid-bottom tray
- Load Ratings:** Vary by tray width, span, and material; typically designed to support standard industrial cable loads
- Dimensions:** Widths commonly range from 50 mm to 600 mm, with heights from 50 mm to 150 mm; lengths are usually 3 meters per section
- Finish:** Powder-coated or galvanized for corrosion protection
- Compliance:** CE marking for European standards, UL or NEMA certifications for North American installations
- Accessories:** Covers, bends, tees, reducers, supports, and brackets for secure installation and routing flexibility

Design Considerations When specifying Dominic cable trays, consider:

- Cable Type and Weight:** Ensure the tray can support the total cable load without excessive deflection
- Environmental Conditions:** Choose material and finish suitable for indoor, outdoor, or corrosive environments
- Spacing and Support:** Follow manufacturer guidelines for support intervals to maintain structural integrity
- Electrical Safety:** Maintain proper grounding and bonding according to local electrical codes
- Future Expansion:** Select trays that allow easy addition of cables without major modifications

Resources and Tools Manufacturers provide catalogs, CAD/BIM files, and submittal tools to help engineers and designers select the correct tray type, size, and accessories. Eaton a...
