

Dual-core fiber optic distribution box for security applications in Mexico

AI Overview

The 2 Cores Fiber Distribution Box (FDB-102A-1) is a compact, rugged outdoor enclosure ideal for secure fiber optic connections in security systems. Overview The 2 Cores Fiber Distribution Box (FDB-102A-1) is designed to provide a safe and secure environment for fiber optic cables and splices, making it suitable for CCTV surveillance, access control, and other security applications in Mexico. It features a compact, rugged design with an IP55 rating, ensuring protection against dust and water, which is essential for outdoor installations in varied environmental conditions.

Key Features

- Fiber Capacity:** Supports 2 fiber cores, ideal for small-scale security networks or point-to-point connections.
- Connector Type:** SC connectors are standard, providing reliable and widely compatible terminations.
- PLC Splitter Support:** Compatible with PLC splitters for signal distribution, allowing flexible network design.
- Durable Construction:** Made from high-impact PC+ABS materials, ensuring long-term durability and mechanical protection for delicate fiber splices.
- Outdoor Suitability:** IP55-rated enclosure protects against dust and water ingress, suitable for streets, residential areas, or industrial complexes.
- Security Features:** Lockable design and robust enclosure enhance physical security, preventing unauthorized access to fiber connections.

Installation and Applications

- Mounting Options:** Can be wall-mounted or installed on poles, depending on network layout and site requirements.
- Security Systems:** Ideal for CCTV networks, access control systems, and other fiber-based security infrastructure.
- Network Integration:** Supports both fusion splicing and connectorized terminations, allowing easy integration into existing fiber optic networks.

Considerations for Mexico

When deploying in Mexico, consider environmental factors such as high temperatures, humidity, and potential exposure...
