

Eight-port gigabit switch industrial grade

Overview

Boasting a versatile product line, flexible port configurations, and an industrial-grade management interface, this switch offers a comprehensive security protection system, seamless ring network applications, effective QoS strategies, and diverse VLAN functions. The DIS-100G Series switches are housed in a highly resistant IP30-rated metal casing to protect the switches from harsh environmental conditions. The high electromagnetic compatibility (EMC) protects the DIS-100G Series from unwanted effects when operating in environments with strong. The OX-IGPS1108-2S, Oxion's industrial PoE switch, supports IEEE 802.13af/at standards with 8 PoE ports. Designed for simplified management, it suits diverse industrial needs, excelling in high-density PoE. Industrial-grade switch expands Ethernet connectivity to factory floors and other environments with space constraints and wide temperature ranges. Comxus industrial managed PoE switch combines high-speed data.
