

Features of Madagascar Distribution Boxes

AI Overview

Distribution boxes in Madagascar are primarily corrugated cartons available in single, double, and triple ply, designed for diverse applications including food, industrial, and export packaging.

Types and Construction Madagascar distribution boxes are typically corrugated cartons manufactured in single, double, and triple wall ply. Single wall boxes are suitable for household, foodstuff, and light industrial products, while double wall boxes are used for garment exports and agricultural products. Triple wall boxes are designed for heavy-duty export packaging, suitable for sea or air freight of extremely heavy items, ensuring durability during transport.

Specialized Features

- Die-cut and multi-fold boxes:** Custom shapes for specific applications, such as pizza boxes or promotional packaging.
- Refrigerated and frozen food boxes:** Coated with anti-humidity materials to maintain insulation and protect perishable goods.
- Printed and branded options:** Boxes can be glossy or matte, with custom printing for marketing and brand visibility.
- Environmental compliance:** Many manufacturers use FSC-certified materials and implement sustainable practices, including recycling and wastewater treatment.

Manufacturing and Suppliers Leading manufacturers in Madagascar include IPC SARLU, Newpack, Suneco Box, and Mor Boxes, offering tailored solutions for both local and export markets. These companies provide customized sizes, high-quality printing, and advanced production techniques, with capacities ranging from 10,000 folding boxes to 50,000 cardboard boxes weekly.

Applications Distribution boxes in Madagascar serve multiple industries:

- Food and beverage:** Refrigerated, frozen, and dry food packaging.
- Industrial and heavy goods:** Triple wall boxes for machinery, electronics, and agricultural exports.
- Retail and promotional:** Custom-printed boxes for branding and marketing campaigns.
- E-comm...**
