

How much does a custom-made cable tray from Israel cost

AI Overview

Custom-made cable tray accessories in Israel typically range from \$20 to \$150 per unit, depending on material, size, and complexity.

Overview of Pricing Factors

The cost of custom cable tray accessories in Israel varies based on several key factors:

- Material Type:** Stainless steel (304 or 316) trays are more expensive due to corrosion resistance and durability, while electro-zinc or standard steel trays are generally lower in cost.
- Customization:** Accessories such as bends, tees, reducers, and covers that are tailored to specific dimensions or configurations increase the price.
- Size and Load Capacity:** Larger trays or those designed to support heavier cable loads require more material and labor, raising costs.
- Supplier and Certification:** Local manufacturers like Jeetmull Jaichandlall and Micro Sheet Crafts offer competitive pricing, but UL-listed or ISO-certified products may carry a premium.
- Quantity and Bulk Orders:** Ordering in bulk can reduce the per-unit cost, while small or one-off custom orders are priced higher due to setup and fabrication efforts.

Typical Price Ranges

- Small accessories (e.g., brackets, clamps, small bends): \$20–\$50 per piece
- Medium-sized components (e.g., tees, reducers, junctions): \$50–\$100 per piece
- Large or specialized items (e.g., stainless steel custom baskets, heavy-duty covers): \$100–\$150 or more per piece

Market Context in Israel

The Israeli cable tray market is mature and technically demanding, with a mix of domestic fabricators and international suppliers. Demand is driven by construction, energy, telecommunications, and data center projects. Suppliers emphasize quality, compliance with safety standards, and adaptability to complex installations, which can influence pricing. Import dependencies for raw materials and logistical considerations may also affect final costs.
