

Integrated 12V power supply

Overview

These power supplies accept a mains voltage input of 230V AC @ 50Hz (+/- 10%) and will provide an output of 12V DC (13. Equipped with separate SPCO contacts for mains-fail signalling, these supplies will also house and charge a VRLA battery up to 7Ah capacity. Our portfolio of isolated power modules combines high-density integrated field-effect transistor and integrated transformer technology to help reduce your bill of materials and simplify your isolated DC/DC designs. By integrating transformers with advanced packaging, including our new IsoShield™. DARK POWER 14 | 1000W silent high-end Power supplies from be quiet! Dark Power 14 1000W features a high-performance heat sink design with an integrated fan and can be operated in either active or semi-passive mode. Functionality cookies are not set. Power supplies within precision-made mild steel enclosures, finished with a white powder coating for durability. The new DC-UPS UPSI-1208DP3 with integrated LiFePO4 battery reliably bridges power failures and faults, so that the uninterruptible 12 VDC power supply is ensured at the output.
