

Latest Price List for Four-Core Vibration Optical Cables

AI Overview

Four-core optical cables typically range from \$0.40 to \$2.04 per meter depending on type, jacket, and manufacturer.

Overview of Pricing Factors

The cost of four-core optical cables depends on several key factors:

- Cable Type:** Single-mode cables (OS2) are generally more expensive than multimode (OM3/OM4) due to their long-distance performance capabilities.
- Jacket Material:** Options include PVC, LSZH (Low Smoke Zero Halogen), armored, or direct burial, with armored and outdoor-rated cables costing more.
- Length:** Longer cables increase material costs; standard reels are often 100 meters, but custom lengths are available.
- Manufacturer and Brand:** Reputable brands like OWIRE provide higher-quality fibers and testing standards, which can affect pricing.

Typical Price Ranges

- Indoor, basic 4-core single-mode cable:** Around \$0.40 per meter, with a 100-meter reel costing approximately \$60–\$90 depending on customization and volume.
- Outdoor, armored, or ruggedized cables:** Prices can reach \$1.80 per meter for high-durability versions suitable for harsh environments.

Wholesale or bulk orders: Some suppliers, such as Alibaba, offer 4-core armored fiber optic cables starting at \$2.04 per unit, with minimum order quantities for bulk purchase.

Additional Considerations

- Performance and Standards:** Ensure cables meet ISO/IEC 11801 or TIA/EIA-568 certifications for low signal attenuation and high tensile strength.
- Installation Environment:** Outdoor, aerial, or direct burial installations require specialized jackets and may increase cost.
- Custom Orders:** Manufacturers can provide custom lengths or specific fiber types (G652D, G657A), which may affect pricing.

For the most accurate and up-to-date pricing, it is recommended to consult supplier-specific price lists, such as OWIRE Solutions or Ray of Fiber Cable, and consider bulk discounts or project-specific requirements.
