

Local cable tray pricing in Fiji

AI Overview

Cable tray prices in Fiji typically range from FJD 50 to FJD 300 per meter, depending on material, type, and customization.

Factors Affecting Cable Tray Costs

Material: Galvanized steel trays are generally the most affordable, while stainless steel and FRP (fiber-reinforced plastic) trays are more expensive due to corrosion resistance and durability.

Type of Tray: Ladder trays, perforated trays, and trough trays vary in cost. Ladder trays are often mid-range, perforated trays slightly cheaper, and fully enclosed trough trays more expensive due to additional material and fabrication.

Size and Load Capacity: Wider trays or those designed to carry heavier cables cost more. Custom dimensions or heavy-duty trays increase the price.

Fittings and Accessories: Elbows, tees, reducers, and mounting brackets add to the overall cost. Customizable fittings for complex installations can significantly increase expenses.

Supplier and Brand: Prices vary between local suppliers and imported products. Brilltech Engineers and other Fiji-based suppliers offer a range of cable trays with different specifications and quality standards.

Estimated Price Range

Tray Type	Material	Price Range (FJD per meter)
Basic perforated or ladder tray	galvanized steel	FJD 50–100
Medium-duty ladder or trough tray	galvanized or mild steel	FJD 100–200
High-end stainless steel or FRP tray with custom fittings	stainless steel or FRP	FJD 200–300

For accurate pricing, it is recommended to contact local suppliers such as Brilltech Engineers directly, as they provide customized solutions and can offer quotes based on your project requirements.

Additional Considerations

Shipping and Import Costs: Imported trays may incur additional shipping fees.

Installation Costs: Labor for mounting and securing trays should be factored into the total project budget.

Compliance: Ensure trays meet national and international safety standards for electrical installations. By considering these factors, you can select the most cost-effective cable tray solution for your project in Fiji.
