

Low-voltage distribution box APO

Overview

APO is a complete range of modular boxes, made of G. Thanks to its modularity concept, boxes can be combined to each other to meet a wide variety of installation customers' requirements. Are you looking for support or purchase information?

Allowing to build the. ket of low voltage electric insulating switchboards and industrial boxes. No matter how ha sh the environment is, there is always a proper enclosure for your needs. Thanks to protection ratings and high quality ble (from 65 x 65 mm up to 361 x 254 mm) plus 3 different cover hei xes are available. change without noti P61B APO 61 se RAL7The product range of enclosures and distribution boards includes service entrance boxes and pillars, small distribution pillars and standard cable distribution cabinets as well as low-voltage distribution boards. Enclosures are available both empty for customers to install their own equipment or. Acti9 Isobar P | PowerPack 4 | Metering The evolution of low voltage electrical distribution continues with the demands for reliability, enhanced safety, cost reduction and connectivity Acti9 Isobar P | PowerPack 4 | Metering The evolution of low voltage electrical distribution continues with the. Consistent, safe and intelligent low-voltage power distribution and electrical installation technology Whether industries, infrastructures or buildings: Each environment depends on a reliable power supply. Which is why products and systems featuring maximum safety and optimum efficiency are in.
