

Nauru sells fiber optic cables

AI Overview

The primary fiber optic cable company in Nauru is the Nauru Fibre Cable Corporation (NFCC), which owns and operates the island's portion of the East Micronesia Cable system. Nauru Fibre Cable Corporation (NFCC) The Nauru Fibre Cable Corporation (NFCC) is the leading telecommunications infrastructure provider in Nauru, responsible for delivering high-speed internet and telecommunication services to businesses, government agencies, and residents. NFCC's mission is to enhance connectivity across the island, providing reliable, high-capacity internet at competitive rates, and supporting economic development and integration with the Pacific region. East Micronesia Cable Project NFCC is a key participant in the East Micronesia Cable Project (EMCP), a submarine fiber optic cable system connecting Nauru with Kosrae (Federated States of Micronesia) and Tarawa (Kiribati). NFCC contracts the construction of the marine cable on behalf of Nauru and subsequently owns and operates the Nauru segment of the cable. This project ensures high-speed international connectivity, enabling improved internet access, business opportunities, and public services. Market Overview Currently, NFCC is the sole fiber optic cable company in Nauru, managing both domestic and international connectivity. The Nauru fiber optic market is monitored for growth and emerging trends, but NFCC remains the central operator responsible for the island's fiber infrastructure. In summary, if you are looking for fiber optic services or partnerships in Nauru, NFCC is the primary and authoritative company managing the island's fiber optic network and international submarine cable connections.
