

Network cabinet screws

Overview

Server rack screws are essential for securely mounting equipment within a rack. The most common types include 10-32, 12-24, and M6 screws. Whether you're building a network racking setup or making adjustments to your existing components, cage nuts and rack screws are easy to lose or misplace. If you've lost some of your hardware, CablesAndKits is here to help! We have a complete selection of cage nuts, rack mount screws, clip nuts. [High-Quality Material]: Crafted from premium plated iron, these rack screws and cage nuts provide exceptional sturdiness and resistance, ensuring long-lasting performance in demanding environments like network cabinets and railway electrical enclosures. This 100 Pack of M6 Mounting Screws and Cage Nuts for Server Racks and Cabinets is convenient to have on hand for installing server, network, AV and other rackmount equipment securely into your storage cabinet or server rack.
