

# Price of 400x200 Cable Tray

## AI Overview

Estimated price for a 400x200 cable tray ranges from \$25 to \$80 per meter, depending on material and type. Price Estimates by Material: Steel (hot-dip galvanized): Typically \$5–\$25 per meter; ladder-type trays are common for industrial use. Aluminum: Lightweight and corrosion-resistant, costing \$6–\$30 per meter, suitable for outdoor or humid environments. FRP (Fiberglass Reinforced Plastic): \$10–\$50 per meter, ideal for chemical or aggressive environments. Stainless Steel: Most durable and corrosion-resistant, \$20–\$100 per meter, used in high-demand industrial settings. Standard Length and Fittings: Most suppliers price cable trays based on a standard length of 2.4 meters for ladder-type trays. Fittings such as bends, tees, and reducers are priced per unit and can add to the total cost. Installation Considerations: Installation costs vary depending on complexity, supports, and connectors. Ladder trays are generally more economical and easier to install, while solid-bottom trays may increase costs. Requesting a Formal Quote: For an exact price for a 400x200 cable tray, it is recommended to submit a Request for Quotation (RFQ) to suppliers like Eaton or local distributors. This ensures pricing accounts for material, length, quantity, and shipping. Summary: Estimated cost per meter: \$25–\$80 depending on material and type. Standard length: 2.4 meters for ladder trays. Fittings: Priced per unit. Formal quote: Submit an RFQ for precise pricing and bulk discounts. This approach ensures you get a tailored quote for your specific 400x200 cable tray requirements while considering material, installation, and supplier options.
