

Price of Customized Outdoor Distribution Boxes

AI Overview

The price of custom-made outdoor distribution boxes varies widely, typically ranging from \$50 to several hundred dollars per unit depending on size, materials, features, and order quantity.

Factors Affecting Price

- 1. Size and Capacity:** Larger boxes designed to house more circuits or higher voltage equipment cost more due to increased material and manufacturing requirements.
- 2. Materials:** Boxes made from high-quality metals like aluminum or copper for conductivity, or durable thermoplastics for insulation, are more expensive than standard materials.
- 3. Features and Customization:** Waterproofing (IP66 rating), pre-drilled mounts, interior paneling, smart monitoring, and custom hole placements increase the cost.
- 4. Order Quantity:** Suppliers often offer tiered pricing; small prototype orders (1-5 units) are more expensive per unit, while bulk orders reduce the cost significantly.
- 5. Compliance and Standards:** Boxes adhering to NEMA or other electrical standards may carry a premium due to certification and testing requirements.

Typical Pricing Examples

- Basic:** small outdoor distribution boxes: \$50-\$150 per unit for low-voltage, standard materials, and minimal customization.
- Medium-sized:** boxes with waterproofing and moderate customization: \$150-\$300 per unit.
- Large:** fully customized boxes with smart features and premium materials: \$300-\$600+ per unit, depending on complexity and additional features.

Supplier Options

- Alibaba:** Offers a wide range of customizable outdoor distribution boxes with options for circuit breakers, switchgear, and distribution panels.
- Accio:** Provides IP66 waterproof boxes with flexible minimum order quantities and scalable pricing.
- E-Abel:** Specializes in custom enclosures with quick turnaround, NEMA compliance, and tailored interior configurations.
