

Price of Flat Panel Distribution Box

AI Overview

The price of a flat panel distribution box typically ranges from \$30 to \$200 or more, depending on size, material, number of modules, and protection rating.

Pricing Overview Flat panel distribution boxes vary widely in cost based on their specifications and intended use. Residential single-phase units with fewer modules and basic ABS plastic construction generally start around \$30-\$50, while larger commercial or industrial units with multiple circuits, higher amperage, and IP65 weather-resistant ratings can cost \$150-\$200 or more.

Factors Affecting Price

- Material:** ABS plastic is common for indoor use, while metal or reinforced plastic with IP65 rating is needed for outdoor or industrial environments.
- Number of Modules:** Boxes designed for 8, 12, or 24 modules increase in price with capacity.
- Voltage and Amperage:** Higher voltage (240/415V) and current ratings (up to 100A) increase cost.
- Additional Features:** Transparent doors, surge protection, and compatibility with DIN rails or smart monitoring systems can add to the price.
- Customization:** Special mounting options, labeling, or integration with building management systems may further increase costs.

Example Models

- 8-outlet flat distribution box:** Basic plastic models suitable for small residential setups are available online, typically in the lower price range.
- 24-module ABS plastic distribution box with IP65:** Designed for surface mounting, water-resistant, and suitable for heavier loads, priced around \$150-\$200.

Buying Tips

- Ensure the box meets local electrical codes and safety standards.
- Consider future expansion; a slightly larger box may save costs later.
- Check for environmental protection ratings if installing outdoors.
- Compare suppliers for warranty and quality, as premium materials reduce long-term maintenance costs.

By evaluating these factors, you can select a flat panel distribution box that balances price, capacity, and durability for your specific application.
