

Price of cable trays and fire pipe racks

AI Overview

Cable trays typically range from £20 to £150 per 2-3 meter section depending on type and material, while fire pipe racks vary widely based on size, load capacity, and fireproofing requirements.

Cable Tray Pricing

Ladder Cable Trays: Hot-dip galvanized ladder trays, commonly used for electrical wiring, are priced based on standard lengths of 2.4 meters. Prices generally start around £20-£50 per section for light-duty trays and can go up to £100-£150 for heavy-duty or fire-resistant models.

Wire Mesh and Basket Trays: Wire mesh or basket trays offer flexibility for complex routing and are typically priced slightly higher due to material and manufacturing complexity, ranging from £40 to £120 per 2-3 meter section.

Fire-Resistant Cable Trays: For applications requiring fireproofing, such as high-voltage or critical infrastructure, fire-resistant trays like Cablofil systems are tested to DIN 4102-12 standards and can cost significantly more, often £150-£300 per section, depending on length, load rating, and certification.

Accessories: Additional components such as brackets, clamps, and cable cleats are priced per unit, typically £5-£30 each, depending on size and material.

Fire Pipe Racks

Fire pipe racks, used to support fire protection piping systems, are generally customized based on pipe diameter, load, and fireproof coating. Standard steel pipe racks without fireproofing can cost £50-£150 per meter, while racks with intumescent coatings or fireproof wraps may increase the cost to £200-£400 per meter. Accessories like hangers, clamps, and seismic supports add to the total installation cost.

Factors Affecting Price

Material: Stainless steel, galvanized steel, or PVC-coated trays affect cost.

Load Capacity: Heavy-duty trays and racks for industrial use are more expensive.

Fireproofing: Intumescent pads, wraps, or fire-resistant coatings increase price.

Length and Width: Wider or longer sections cost more.

Installation Accessories: Brackets, cleats, and supports add to overall cost. For accurate budgeting, it is recommended to request quotes from suppliers like Direct...
