

Price of threaded posts for distribution boxes

AI Overview

Threaded posts for distribution boxes typically range from \$0.50 to \$10 per piece, depending on material, size, and type. Overview Threaded posts, also known as standoffs or terminal posts, are used in distribution boxes to mount electrical components, provide insulation, and maintain spacing between panels or circuit boards. They come in male or female threads, round or hex shapes, and are made from metal (aluminum, brass, stainless steel) or plastic .Pricing

Factors Material: Plastic or nylon posts: \$0.50–\$2 each Aluminum posts: \$1–\$5 each Brass or stainless steel posts: \$3–\$10 each Size and Thread Type: Small posts (M3–M4, 10–20 mm length) are cheaper. Larger posts (M6–M8, 30–50 mm length) cost more due to material and machining. Quantity: Bulk orders reduce per-unit cost. For example, buying 100–500 pieces can lower the price by 20–50% compared to single-piece purchases. Supplier and Delivery: Industrial suppliers like McMaster-Carr offer same-day or next-day delivery but may charge slightly higher prices .Online marketplaces like Alibaba provide competitive bulk pricing, especially for custom sizes or materials .Sourcing Options McMaster-Carr: Offers a wide selection of threaded posts, including male/female and hex/round standoffs, with fast delivery .Amazon: Provides terminal posts suitable for small-scale or DIY distribution boxes .Alibaba: Ideal for bulk orders of distribution pillar boxes and associated hardware, including threaded posts .Specialized industrial suppliers: Companies like R. STAHL provide terminal boxes and may offer compatible threaded posts for hazardous or custom installations .Recommendation For small-scale or prototyping projects, purchasing from McMaster-Carr or Amazon is convenient. For large-scale installations, sourcing from Alibaba or industrial suppliers can reduce costs and allow customizati...
