

Procurement of Fire Cable Trays in France

AI Overview

Fire-resistant cable trays from France are available from leading suppliers like NIEDAX France and Legrand, offering E30/E90 certified, halogen-free, and corrosion-resistant solutions suitable for industrial, commercial, and infrastructure projects.

Key Suppliers

NIEDAX France is a major provider of cable support systems and fire-resistant trays, serving national installers and engineering offices with over 20 years of experience. They specialize in mechanical and electromagnetic protection systems and offer pre-spliced cable trays for efficient installation.

Legrand France offers Cablofil wiremesh cable trays, which are certified E30/E90 and comply with IEC 61537, ABS, and DNV standards. These trays feature corrosion-resistant finishes (316L, 304L stainless steel), quick-fixing systems, and a 90% open structure for improved cable ventilation and maintenance.

Legrand also provides perforated sheet metal trays with high fire resistance, halogen-free materials, and compliance with DIN 4102-12 standards.

Product Specifications

Fire Resistance: E30/E90 certifications ensure circuit integrity for 30–90 minutes during fire incidents.

Materials: Halogen-free flame retardant (HFFR), low-smoke zero halogen (LSZH), cross-linked polyethylene (XLPE), silicone rubber, and mineral-insulated options.

Temperature Range: Typically -20°C to +130°C for metal trays and -20°C to +60°C for PVC trays.

Mechanical Strength: Corrosion-resistant, lightweight, and easy to handle, cut, or perforate for complex installations.

Compliance: RoHS directive, EN 50575 (CPR), NFPA 130 for rail, and other European and international standards.

Market and Pricing Insights

The French fire-resistant cable materials market is growing due to stringent fire safety regulations, infrastructure development, and renewable energy projects. Halogen-free and low-smoke materials dominate over 55% of consumption, with be...
