

SC to LC beam splitter 1 to 2

Overview

This 1×2 plug-in fiber optic beam splitter is with plug-in-play design which enables fast deployment of fibers without splicing machine. The mini plug-in type splitter can save time and space but still provides reliable protection for the fiber optic cable. AS it is with a compact structure, the 1×2 blockless plc splitter. Optical splitters and couplers split or combine light—distributing signals injected into a single fiber strand to multiple fibers, enabling point to multi-point communication in Fiber To The Home (FTTH) networks based on ITU. T PON standards such as GPON, XGS-PON and new 25 and 50G standards. Aceccable offers a wide range of outdoor cables, including fiber optic cables, coaxial cables, and power cables.
