

Sighting bridge

Overview

Folklorist notes that Mothman has been widely covered in popular press, with some claiming sightings connected with UFOs, and others suggesting that a military storage site was Mothman's "home". Brunvand notes that the recountings of the 1966-67 Mothman reports usually state that at least 100 people saw Mothman with many more "afraid to report their sightings." However, he points out that these writte.

AI Overview

The term "sighting bridge" can refer to the Silver Bridge in West Virginia, famous for Mothman sightings, or to the navigation bridge on ships, where visibility regulations are critical. Mothman Sightings and the Silver Bridge The Silver Bridge, which spanned the Ohio River between Point Pleasant, West Virginia, and Gallipolis, Ohio, became infamous after its collapse on December 15, 1967, killing 46 people. Prior to the disaster, numerous residents reported sightings of a mysterious creature known as the Mothman, described as a seven-foot-tall humanoid with large wings and glowing red eyes . The first widely reported encounter occurred on November 15, 1966, when two couples saw the creature near the TNT area, a former munitions site. Witnesses claimed it pursued their car, making screeching sounds . These sightings were later popularized in John Keel's book *The Mothman Prophecies* and inspired a 2002 film . The legend continues to be celebrated annually in Point Pleasant. Navigation Bridge Visibility In maritime contexts, a sighting bridge refers to the navigation bridge of a ship, where the crew must maintain a clear field of vision. Regulations specify that the lower edge of the bridge windows should not obstruct the forward view, and the upper edge must allow a horizon view for a person with a height of eye of 1,800 mm above the deck, adjustable to 1,600 mm if necessary . The windows should be inclin...
