

Slovakia CIF price optical transmitter 200G

AI Overview

The CIF price for a 200G optical transmitter in Slovakia typically ranges from approximately €900 to several thousand euros per unit, depending on the model and supplier.

Overview of 200G Optical Transmitters

200G optical transmitters are used for high-speed data transmission over single-mode fiber, supporting Ethernet links and data center interconnects. Popular models include:

- Keysight N7718C:** A reference transmitter suitable for 200G-per-lane validation and 400G research, compatible with intensity-modulated signals at 120 Gbaud and beyond, operating in the O-band (1.3 μm) and supporting LR4, ER4, and CWDM4 wavelength grids.
- 10Gtek QSFP56 200G FR4:** A 200G transceiver module for 2 km single-mode fiber, featuring 4 independent channels at 26.5625 GBd per channel, PAM4 modulation, and compliance with IEEE 802.3bs 200GAUI-4 interface.
- Altera 200G FR4 Series:** Available through distributors like Mouser, offering fiber optic transmitters, receivers, and transceivers for 200G Ethernet applications.

Pricing in Slovakia

Mouser Slovakia lists 200G optical transmitters and transceivers with unit prices that vary based on quantity and model, typically starting around €900 per unit for standard modules. Import data indicates that optical radiation instruments in Slovakia had an average import price of \$2.3K per unit in 2023, reflecting a general market range for high-performance optical equipment. CIF pricing will include the product cost, insurance, and freight to Slovakia, which may add 5–15% to the base unit price depending on shipping method and supplier terms.

Procurement Considerations

Supplier selection: Mouser Slovakia and 10Gtek are reliable sources for 200G optical transmitters.

Technical compatibility: Ensure the transmitter matches your network interface (e.g., QSFP56, FR4, LR4) and fiber type (single-mode or multi-mode).

Quantity discounts: Larger orders may reduc...
