

Stainless Steel Cable Tray Production in West Asia

AI Overview

For high-quality stainless steel cable trays in West Asia, consider reputable Asian manufacturers from Hong Kong, Indonesia, and China, known for durable, corrosion-resistant solutions suitable for industrial and commercial applications. Leading Manufacturers

1. Jeetmull Jaichandlall (Hong Kong) Jeetmull Jaichandlall is recognized for producing stainless steel cable trays with excellent finishing and high-quality standards. Their products are available in various sizes, shapes, and configurations, making them suitable for diverse industrial sectors. The company emphasizes customization, adherence to industry standards, and global shipping, making it a reliable choice for West Asian projects.
2. PT Sumber Surya Mandiri (Indonesia) This Indonesian manufacturer specializes in cable trays, cable ladders, and wire mesh systems. They offer heavy-duty, open, and enclosed cable management systems designed for industrial and commercial applications. PT Sumber Surya Mandiri is ISO and SNI certified, ensuring compliance with international quality standards, and they provide solutions suitable for export to West Asia.
3. ApexTray / Shanghai Sintray Industries (China) Chinese manufacturers like ApexTray and Shanghai Sintray Industries provide durable, corrosion-resistant stainless steel trays for telecommunications, construction, and industrial projects. They offer customizable designs, ladder and perforated tray options, and comply with ISO 9001 and UL standards, making them suitable for harsh environments such as coastal or chemical-exposed areas.

Key Considerations for West Asia

Material Grade: For coastal or high-corrosion regions, 316-grade stainless steel is recommended over 304-grade for superior resistance to chlorides and chemical exposure.

Customization: Ensure the manufacturer can provide custom lengths, widths, and fittings to match project specifications.
