

Supply of fire-resistant and heat-resistant cable trays in Canada

AI Overview

Canada has a robust supply of fire-resistant cable trays from leading manufacturers and distributors, including Superior Tray, Unitray, T&B Cable Tray, Niedax CER, Code Electric, and specialized fire-rated solutions from NewReach. Leading Manufacturers and Suppliers Superior Tray Systems Inc. offers CSA and UL-certified cable trays suitable for commercial and industrial applications, including ladder, solid, and wire basket trays, with options for fire-resistant coatings and materials. Unitray manufactures aluminum cable trays with CSA-approved Class C, D, and E ratings, including FASTRAY® systems designed for harsh environments and fire safety compliance. T&B Cable Tray (ABB Electrification Canada) produces aluminum, steel, and stainless steel ladder trays, large radius, long-span, and nonmetallic trays, with custom options for fire-resistant installations. Niedax Canadian Electrical Raceways (CER) provides CSA-approved cable ladders, trays, and basket systems, emphasizing fire safety, durability, and compliance with Canadian standards. Code Electric supplies aluminum and steel ladder trays, ventilated and solid-bottom trays, and instrumentation channels, with rapid delivery across Western Canada and options suitable for fire-resistant applications. NewReach specializes in fire-rated cable trays, engineered to maintain structural integrity during fires. Their products include powder-coated aluminum, galvanized steel, stainless steel, and fiberglass trays with intumescent coatings, tested to ISO 834-1, EN 1363-1, DIN 4102-12, and AS/NZS 3013:2005 standards, offering up to 2-hour fire ratings.

Key Features to Consider

Material and Coating: Fire-resistant trays are available in galvanized steel, stainless steel, aluminum, and fiberglass with intumescent coatings.

Compliance: Look for CSA, UL, and ISO certifications to ensure adherence to Canadian fire safety stan...
