

Tanzanian network cabinet dimensions

AI Overview

Network cabinets in Tanzania are available in various standard sizes, including wall-mounted 6U cabinets (450mm deep) and floor-standing cabinets up to 1000mm deep and 487mm wide. Common Wall-Mount Cabinets 6U Wall-Mount Cabinet: 450mm depth, 19-inch standard rack width, mounting profile 2.0mm, IP20 protection, SPCC cold-rolled steel construction, glass front door with lock. Other wall-mounted options: Typically range from 6U to 12U, with depths between 400mm and 600mm, suitable for small server rooms or network closets. Floor-Standing Cabinets Standard Floor Cabinets: 1000mm deep, 487mm wide, with fixed or sliding shelves for equipment. Adjustable Features: Many cabinets include removable side panels, adjustable wheelbases, and perforated front doors for ventilation. Rack Units: Floor-standing cabinets often range from 12U to 42U, accommodating larger networking setups. Material and Protection Material: SPCC cold-rolled steel or similar durable metals. Surface Finish: Degreased, phosphoric, and powder-coated for corrosion resistance. Protection Level: IP20 is common, providing basic protection against dust and contact. Additional Features Removable side panels for easy installation. High-density perforated doors for airflow. Adjustable shelves and mounting profiles to fit various equipment sizes. Some cabinets support modular expansion and integration with security solutions like CCTV and access control. These dimensions and features are widely available from Tanzanian suppliers such as NidaDanish, Empire, Legrand, and Sai Office, providing flexibility for both small and large-scale network installations.
