

Zambia hot-dip galvanized cable tray price quote

AI Overview

Hot-dip galvanized cable trays in Zambia typically range from \$10 to \$50 per meter, depending on type, thickness, and supplier.

Overview of Pricing

The cost of hot-dip galvanized (HDG) cable trays depends on several factors:

- Tray Type:** Ladder, perforated, or solid trays affect pricing. Ladder trays are generally mid-range, while perforated trays may be slightly higher due to manufacturing complexity.
- Material Thickness:** Common thicknesses range from 1mm to 3mm. Thicker trays provide higher load capacity and durability, increasing the price.
- Zinc Coating:** HDG trays have a zinc layer of 40–65 microns, offering superior corrosion resistance, which can influence cost.
- Length and Quantity:** Bulk orders reduce per-meter cost. Minimum order quantities often start at 100 meters for perforated trays.

Typical Price Range

Based on international suppliers and African export experience:

- Standard HDG Ladder Tray: \$12–\$25 per meter
- Perforated HDG Tray: \$15–\$30 per meter
- Heavy-duty or custom trays: \$30–\$50 per meter

These prices are indicative and may vary due to shipping, import duties, and local distributor markups in Zambia.

Manufacturers and Suppliers

Several manufacturers export HDG cable trays to Africa, including:

- Hangzhou ESCO (China):** Offers a wide range of HDG trays with international shipping to Africa.
- Premier Galvanizers (India):** Supplies ladder and perforated trays with thickness 1–3mm, suitable for industrial projects.
- Superfab Inc (Global):** Provides durable HDG trays for indoor and outdoor installations, emphasizing long-term corrosion resistance.

Alibaba and Accio platforms: Offer multiple suppliers with factory pricing, allowing direct inquiries for Zambia delivery.

Considerations for Zambia

- Import Costs:** Shipping from China or India may add 15–25% to the base price.
- Local Distributors:** Some Zambian electrical suppliers may stock HDG trays, potentially reducing lead time b...
