

Zambian Primary Distribution Box Requirements and Standards

Overview

ZS 418 is the Zambian standard for wiring of premises. It provides guidelines for safe and compliant electrical installations, including the connection between the meter box (where utility metering occurs) and the distribution box (consumer unit or DB, where circuits are distributed). The Zambia Bureau of Standards is a statutory organisation established by an Act of Parliament and implements the Standards Act No. 4 of 2017 of the Laws of Zambia. It is important that users of DZS 907-1 : 2015 ISC Edition1 Draft for Public Comment Zambian Standard ELECTRICITY DISTRIBUTION INFRASTRUCTURE - APPLICATION GUIDE Part 1: Construction (Design, Selection, Installation and Commissioning) This draft standard is for public enquiry only. The development of the Distribution Grid Code has been accomplished by the extensive efforts of the Energy Regulation Board (ERB) and was subjected to broad technical and legal reviews by stakeholders in the Zambian Electricity's low voltage (LV) network code ("Distribution. This is the first issue of the Zambian Distribution Grid Code.
